

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

A. HARTLEBEN'S KLEINES STATISTISCHES TASCHENBUCH ÜBER ALLE LÄNDER DER ERDE. Vol. 22, 1915. Nach den neuesten Angaben bearbeitet von Prof. Dr. Friedrich Umlauf. 124 pp. A. Hartleben, Leipzig, 1915. Mk. 1.50.  $5\frac{1}{2} \times 4\frac{1}{2}$ .

A. HARTLEBEN'S STATISTISCHE TABELLEN ÜBER ALLE STAATEN DER ERDE. Übersichtliche Zusammenstellung von Regierungsform, Staatsoberhaupt, Thronfolger, Dynastie, Flächeninhalt, Bevölkerung, etc., etc., nach den neuesten Angaben für jeden einzelnen Staat. Vol. 23, 1915. A. Hartleben, Leipzig, 1915. 50 pfg.

#### ECONOMIC AND COMMERCIAL GEOGRAPHY

DAS EISENBAHNWESEN. Von E. Biedermann. Series: Aus Natur und Geisteswelt. 2nd edit. 103 pp. Ills. B. G. Teubner, Leipzig, 1913.  $7\frac{1}{2} \times 5$ .

#### METHODOLOGY AND TEACHING

THE ATLAS GEOGRAPHIES. A New Visual Atlas and Geography Combined. Part 3: Senior Geography. Suitable for students in the upper forms of public and secondary schools, and adapted to meet the requirements of the university locals, civil service, and other examinations. No. 4—Africa. By Thomas Franklin and E. D. Griffiths. 116 pp. Maps. W. & A. K. Johnston, Ltd., Edinburgh, 1914 (?). 1s. 6d.  $10 \times 7\frac{1}{2}$ .

GRUNDLEHREN DER MATHEMATISCHEN GEOGRAPHIE UND ELEMENTAREN ASTRONOMIE. Für den Unterricht bearbeitet von S. Günther. 6th edit. xii and 138 pp. Diagrams. T. Ackermann, München, 1907.  $8\frac{1}{2} \times 5\frac{1}{2}$ .

#### GENERAL

INÉDITOS (MISCELLANEA) COLLIGIDOS, COORDENADOS E ANOTADOS por Jordão de Freitas e Trazidos á publicadade pelo 3º Visconde de Santarem. vii and 582 pp. Imprensa L. da Silva, Lisboa, 1914.  $11\frac{1}{2} \times 8\frac{1}{2}$ .

A MODEL FIRE-PROOF FARM HOUSE OR COUNTRY HOME. Practical suggestions for economical and enduring construction with complete plans and specifications of a model building. By A. L. A. Himmelwright. 91 pp. Ills. Neale Publishing Co., New York, 1913. \$1.  $9 \times 12$ .

### NEW MAPS

EDITED BY THE ASSISTANT EDITOR

*For system of listing maps see p. 75 of this volume*

#### AFRICA

**Nigeria.** The Eket District, Southern Provinces of Nigeria, from a survey by P. Amaury Talbot, B.A., 1913. 1:150,000. 4°58' - 4°31' N.; 7°47' - 8°21' E. 2 colors. With inset showing location of main map. 1:5,000,000. 8° - 4° N.; 3° - 9° E. 2 colors. Accompanies "The Land of the Ibibios, Southern Nigeria," by P. A. Talbot, *Geogr. Journ.*, Vol. 44, 1914, No. 3, pp. 286-306.

[District forms part of the delta of the Niger lying just west of the Cross River. No relief is shown, as the greater part of the district is below 50 ft.; the coastal areas are amphibious.]

#### ASIA

**Caucasia.** A Geological Map of the Caucasus, compiled from the latest sources by Felix Oswald, D.Sc., B.A., F.G.S., F.R.G.S., (Probate Registrar, Nottingham). 1:1,000,000. 46° - 39½° N.; 36° - 51° E. Oriented N. 31° W. 20 colors. Accompanied by "Explanatory Notes to Accompany the Geological Map of the Caucasus, by Felix Oswald," Dulau & Co., London, 1914.

[Important geological map of the Caucasus on one and a half times as large a scale as the corresponding sheets (Nos. 34-35: FV-GV) of the standard International Geological Map of Europe, 1:1,500,000. On the whole, the formations are differentiated in greater detail. For instance, the Lower Jurassic of the international map along the northern slope of the Western Caucasus is expanded into Lower and Middle Jurassic; while the whole crystalline and granitic core of the range is more minutely subdivided. Fourteen formations and six types of igneous rocks are distinguished. The main divide
